*Welcome  
International Students  
JK-Grade 12*

# *Education You Can Believe In!*

At Beacon Christian Schools, international students are welcomed and invited to learn and experience personal growth. There are over 30 teachers who are certified professionals in their areas.

All BCS teachers and staff members are Christians, and believe that faith and learning must go together.

## **Quality Christian Education**

Beacon Christian Schools believe that our world belongs to God. We teach the Bible in all our classes from Junior Kindergarten to Grade 12. We have two school campuses located on 6 acres of land. Both campuses were rebuilt in 2007, and provide an excellent learning environment.

## **Excellent Sports and Academics**

Beacon Christian School students are encouraged to do their best both in and out of class. Whether it be on the soccer field, on the stage, in music class or in many other activities students enjoy much success and achievement.

## **English Language Instruction**

BCS has a full ESL program to help international students learn how to speak and write in English.

## **Friendships last a lifetime**

Relationships are important, and friendships that are built during teen years can last for life. Many Beacon secondary students stay in contact with their friends for years after graduate.
